## Academic Research Support Application

Byte Craft Limited sponsors academic research projects using C for embedded systems. We exchange a Code Development System compiler for an acknowledgment of our assistance, and for the use of information about the completed project in our promotions. This assistance is provided only for research projects with clearly defined goals; for pricing on compilers for use in regular coursework, please contact [info@bytecraft.com](mailto:info@bytecraft.com).

If you are working on a research project, and would like to apply for a compiler sponsorship to assist you in your project, please mail or fax this completed form to Byte Craft Limited, or email all information requested below to [info@bytecraft.com](mailto:info@bytecraft.com).
