Academic Research Support Application

Byte Craft Limited sponsors academic research projects using C for embedded systems. We exchange one of our Code Development System compilers for an acknowledgment of our assistance and the use of information on the completed project in our promotions. This assistance is provided only for research projects with clearly defined goals; for pricing on compilers for use in regular coursework please contact info@bytecrafter.com.

If you are working on a research project and would like to apply for a compiler sponsorship to assist you in your project, send this completed form to Byte Craft Limited, or email all of the requested information to info@bytecrafter.com.
